Quantity	Right:		Left:

This garment requires 2 hands to don and 1 to doff.

Directions for the Upper Extremity

Choose the FarrowWrapN version: Classic, LITE or STRONG. Classic and STRONG are generally reserved for more severe edema cases. LITE is more appropriate for mild to moderate edema. On the armpiece table, the “_” is part of the sku number & stands for either a “CL” for Classic, “LT” for LITE or “ST” for STRONG. This SKU number can be crossreferenced with the Pricing Schedule to calculate the price.

For lengths, measure from the outside flexor surface of the wrist up the arm to the axilla. A pair of Terry Cloth liners is shipped free with each order. To order additional liners, enter the quantity of pairs on the line below.
